ABDULLAH AMIN

Islamabad, Pakistan | +92 318 8108190 | abdullahaminkpk315@gmail.com

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented Computer Science graduate with a specialization in Data Science, with a strong foundation in programming, data analysis, and visualization. Proficient in a range of tools and technologies, including Python, C, C++, MySQL, MongoDB, and PowerBI. Skilled in data mining, warehousing, and business intelligence, with a keen eye for detail and a passion for extracting insights from complex data sets. Excellent team player with effective communication and critical thinking skills, ready to apply data-driven solutions to drive business growth and innovation.

EDUCATION

Intermediate (ICS) | *GSUHHSS No. 1, Charsadda* **2020 – 2022**

Bachelor in Computer Science – Specialization in Data Science **2022 – 2026**

University of Engineering and Technology (UET), Mardan

WORK EXPERIENCE

Data Center Intern **August 2026 – Present**

National Telecommunication Corporation (NTC) HQs, Islamabad

- Undergoing hands-on training and assigned project tasks within a national telecommunications data center environment.
- Gaining exposure to enterprise IT infrastructure and data center operations under the Ministry of Information Technology and Telecommunication.

Data Science & AI/ML Intern | *Cognisons, Islamabad* **March 2026 – June 2026**

- Collected, cleaned, and preprocessed structured and unstructured datasets, and performed exploratory data analysis and feature engineering to develop, train, and evaluate machine learning models using Python.
- Managed PostgreSQL and MongoDB databases and supported data processing and software development tasks using Python, Docker, and AWS.

Intern | *Center of Artificial Intelligence (CAI)* **January 2026 – February 2026**

- Worked on the Water Quality Management System project, contributing to Python programming, data collection, and data annotation.
- Conducted water quality experimentation (physical and microbiological) for custom dataset collection.
- Gained hands-on technical experience and developed communication and problem-solving skills as part of the AI Team.

Final Year Project

- Conducted data-driven analysis of cardiovascular risk factors using national and hospital datasets.
- Developed machine learning models and an interactive Streamlit dashboard to predict and visualize heart disease risks and prevention strategies.

Co-ordinator **2022 – 2025**

- Organized and coordinated university events, managing logistics, budgeting, and team collaboration.
- Enhanced leadership, communication, and time management through hands-on event execution.

CORE TECHNICAL SKILLS

- Programming: Python, C, C++
- Data Analysis and Design Algorithms
- Data Mining (Weka)
- Data Visualization (Tableau, PowerBI)
- Data Warehousing and Business Intelligence
- Database Systems: MySQL, MongoDB, PostgreSQL
- Data Preprocessing (Excel, Orange)
- Data Collection, Cleaning, Annotation, Labeling, and Model Training

SOFT SKILLS

- Team Work
- Leadership & Management
- Effective Communication
- Critical Thinking

LANGUAGES

- English – Proficient
- Urdu – Fluent
- Pashto – Fluent
